Agreement Covers Distribution Rights of CERAMENT in United States and Canada

Lund, SWEDEN. (PRNEWswire) September 5, 2012 –BONESUPPORT, an emerging leader in injectable bone substitutes for orthopedic trauma, bone infections and instrument augmentation related to orthopedic surgery, today announced the signing of a multi-year exclusive distribution agreement with Biomet, Inc., a global leader in the manufacture of musculoskeletal medical products. Under the agreement, Biomet will have exclusive distribution rights for BONESUPPORT's proprietary CERAMENT™|BONE VOID FILLER product line in the United States and Canada for Orthopedics, Trauma and Foot and Ankle indications.

The agreement is an important step in BONESUPPORT'S planned commercialization strategy to expand access and accelerate adoption of the CERAMENT product portfolio.

"The completion of this agreement with such a distinguished partner as Biomet is an endorsement of the CERAMENT product line," said Lloyd Diamond, CEO of BONESUPPORT. "In Biomet we have found an experienced partner dedicated to bringing innovative treatments to the world."

Mr. Diamond added, *"Biomet's leadership position and strong distribution channel provide full and immediate territory coverage for CERAMENT in two critical markets, the United States and Canada and provides an excellent platform from which we can launch future product line extensions."*

*"We are very excited to be partnering with BONESUPPORT to bring the CERAMENT product line to the U.S. and Canadian markets," said Joel Higgins, Vice President and General Manager of Biomet Biologics. "Not only does CERAMENT complement our existing portfolio of products, this agreement demonstrates our commitment to bring innovative products to market which offer better therapeutic options to our customers and improved care for their patients."*
